

Medical & Health Documents Checklist

Medical exam requirements by country, with the UK TB test, Canadian panel physician process, and Australian health assessment explained step by step.

Timing matters

Medical exams are typically valid for only 6-12 months. Don't test too early - schedule your exam after receiving your admission offer, but before you submit your visa application.

Medical Requirements by Country

Country	Exam Required?	Validity	Key Requirement
USA	Not for F-1 visa itself	N/A	University may require a health form after arrival
UK	Yes (TB test)	6 months	Mandatory for most stays over 6 months
Canada	Yes, if 6+ months	12 months	Upfront medical exam from an approved panel physician
Australia	Yes	12 months	Chest X-ray plus general health examination
Germany	Not for the visa	N/A	Health insurance is mandatory; medical exam is optional
New Zealand	Yes, if 12+ months	36 months	Chest X-ray certificate required

UK TB Test

- ☐ Book your test at a UK-government-approved TB testing clinic - check the current approved list, don't assume last year's
- ☐ Bring your passport, passport photos, and the test fee
- ☐ Expect results within 2-5 working days
- ☐ Certificate is valid for 6 months from the test date - keep your reference number safe

Canada Medical Exam Process (Panel Physician)

- ☐ Step 1: Download the upfront medical request form (IMM 1017E) from your IRCC account after submitting your application

- ☐ Step 2: Find and book an IRCC-approved panel physician
- ☐ Step 3: Bring your passport, the form, passport photos, and the exam fee
- ☐ Step 4: Complete the physical exam, chest X-ray, and blood/urine tests (roughly 1-2 hours)
- ☐ Step 5: The panel physician uploads results directly to IRCC - you won't receive a physical copy yourself

Validity warning

The Canadian medical exam is valid for 12 months. If your study permit is approved but your medical exam has expired by the time you're ready to travel, you'll need to redo it.

Australia Health Examination

- ☐ Complete this after submitting your visa application online - you'll receive a HAP ID (Health Assessment Portal ID) by email
- ☐ Book with an approved panel physician using your HAP ID
- ☐ Tests typically include a chest X-ray, physical exam, and HIV test (additional tests for some fields, e.g. nursing/medicine)
- ☐ Results are typically available within 5-7 days and are valid for 12 months
