

Module 2 Master Summary & Quick-Reference Card

Everything from Lessons 1-6, condensed onto a few pages you can keep open while assembling your real application.

The 6 Document Categories

University Documents - Financial Documents - Academic Records - Identity Documents - Health Documents - Character Documents. Every requirement in your application falls into one of these six buckets.

Financial Thresholds (2026)

Country	Bank Statement Window	Living Cost Requirement
USA	3-6 months, consistent balance	\$15,000 - \$25,000/yr
UK	28 consecutive days	GBP 1,529/mo London, GBP 1,171/mo elsewhere
Canada	4 months or a GIC	~CAD \$20,635 (GIC benchmark)
Australia	3 months	AUD \$29,710/yr
Germany	Blocked account	EUR 11,904/yr (EUR 992/mo)

The 7-Step Assembly System

Document Audit -> Digital Compilation -> Quality Check -> Physical Assembly -> Cross-Verification -> Backup Creation -> Final Review (48 hours before submission).

Golden Rules

- ☐ Show 20-30% more funds than the stated minimum
- ☐ Build financial documentation gradually - never with a sudden pre-application deposit
- ☐ Keep names, dates, and addresses identical across every single document
- ☐ Maintain 4 backups: cloud, physical duplicate, USB, and email archive
- ☐ Run a 48-hour fresh-eyes review before you submit anything
- ☐ Always declare previous visa refusals honestly, whatever the country

Where to go next

Module 3 moves from documents to narrative - your Statement of Purpose and (for Australia) your Genuine Student answers. Keep this summary handy; you'll reference your document set constantly while writing.
